PRODUCT DATA SHEET

ZQ-810

Leafing aluminium powder

TECHNICAL DATE

Grade.....180 Mesh Grade
Water Coverage(Min cm²/g).....7000
Average Particle Size.....80±1 microns
Purity of Metal.....99.6%
Apparent Density(g/cm³).....0.20-0.26

Product Features

It is easy to disperse,good hiding power,particle size distribution is concentrated,uniform,smooth,delicate,strong metallic effect,and there is heat resistant acid-base properties.The greatest feature of our products is water oil dual,high temperature can reach 320 degrees,the feature is difficult to achieve of the generally aluminum powder.

APPLICATIONS GUIDELINES

LP-810 is widely used in powder coatings, printing ink,plastic masterbatch,printing,textiles and other fields.Because it is solvent free,no VOC emissions,so it can be used in demanding environmental protection products,such as:children's clothing,food packaging paper printing,toys,wallpaper and other industries.
